

Easi-Fit Air Conditioning

Unico Easy

- ***No external condensers or pipework required***
- ***Discreet external grilles***
- ***Easy installation from within the room***
- ***Quiet operation***
- ***Floor mounted***
- ***Cooling Only or Heat Pump models available***

Easy to fit with no external condensers or pipework, the Unico Easy makes quick, efficient and affordable air conditioning available to everyone.

Easi-Fit Air Conditioning

In an exclusive partnership with Olimpia Splendid, one of Europe's leading air conditioning manufacturers, Rapid Climate Control present the revolutionary Unico Easy. Italian design and innovative technology ensure the Unico Easy will be the future of room air conditioning.

Introduction

Designed to suit a wide range of environments including hotel bedrooms, portable buildings and small offices.

The Unico Easy provides a highly efficient air conditioning solution due to its all-in-one compact design. Fitting neatly beneath a windowsill it does not require any separate outdoor unit or associated pipework like most air conditioners. The Unico Easy can be installed entirely from within the room.

Operation

The Unico Easy could not be more straightforward, it does not require any special skills to install and provides a very economical solution to air conditioning problems, particularly where planning permission for siting external condensers is a major consideration.

Cost Effective

The competitive price of the Unico Easy makes air conditioning affordable with the extra advantage that it can be installed one room at a time without major disruption, allowing additional units if required to be added to suit your budget.

Heat Pump

The Unico Easy is also available in a Heat Pump model. Not just cooling and dehumidifying, for use all year round, this unit will be a complete climate control system for your environment. A rated for cooling and B rated for heating, the heat pump technology in this unit makes it highly energy efficient.

Key Features

- **Unique design with no external condensers or pipework**
- **Maintains visual integrity of building facade**
- **Fully installed from within the room**
- **Remote control**
- **Quiet operation for night time use**
- **Dehumidifies as it cools**

Technical Specifications

		Easy	Easy HP
Cooling Capacity	Btu/hr	7,000	6,483
	kW	2.05	1.9
Heating Capacity	Btu/hr		6,824
	kW		2.0
Dehumidification Capacity	l/h	1.0	1.0
Voltage/Frequency	V-F-Hz	230-1-50	230-1-50
E.E.R		2.65	2.62
C.O.P		-	2.81
Energy Efficiency (cooling mode)		A	A
Energy Efficiency (heating mode)			B
Dimensions (W x H x D)	mm	693x666x276	693x666x276
Weight (without packaging)	kg	39	39
Diameter of holes in wall	mm	160	160
Refrigerant Gas		R410A	R410A
