

Design 10 is the entry level board designed for all applications. As with both models in the range, there is ample cable space available even when RCBOs are fitted. The top mounted terminal rail makes the wiring of the neutral and earth connections neat and simple. Multiple fixing points, and a full metal DIN rail ensure the devices sit square.

VML202

Switch Disconnecter Incomer

- Metal switch disconnecter incomer enclosures, single row from 2 to 20 outgoing ways, dual row from 12 to 40 outgoing ways.
- Enclosures come supplied with a full metal DIN rail, 63A or 100A switch disconnecter incomer and full complement of earth and neutral terminals along with marking labels, busbar and instructions.
- Recommended for use with TT systems when utilising RCBO on outgoing circuits.
- Hager also recommend the use of cable clamp (VA10MT) for use on TT systems (available as an accessory).
- Conforms to BS EN 61439-3 Including Annex ZB (16kA rating).
- All Design 10 boards contain top, bottom & rear knockouts.

VML402H

RCCB Incomer

- Metal RCCB incomer enclosures, single row from 2 to 14 outgoing ways, dual row available with 12 outgoing ways.
- Enclosures come supplied with a full metal DIN rail, 40A, 63A or 100A 30mA RCCB incomer and full complement of earth and neutral terminals along with marking labels, busbar and instructions.
- Conforms to BS EN 61439-3 Including Annex ZB (16kA rating).
- All Design 10 boards contain top, bottom & rear knockouts.

Time Delayed RCCB Incomer

- Metal RCCB incomer enclosures, single row 12 outgoing ways.
- Enclosures come supplied with a full metal DIN rail 100A 100mA time delayed and 63A 30mA RCCB incomers and full complement of earth and neutral terminals along with marking labels, busbar, meter tail clamp and instructions.

- Recommended for use with TT systems.
- Conforms to BS EN 61439-3 Including Annex ZB (16kA rating).
- All Design 10 boards contain top, bottom & rear knockouts.

Split Load

- Metal split load and configurable enclosures, single row from 6 to 16 outgoing ways, dual row from 10 to 38 outgoing ways.
- Enclosures come supplied with a full metal DIN rail and 2 RCCBs and full complement of earth and neutral terminals along with marking labels, busbar and instructions.

- Conforms to BS EN 61439-3 Including Annex ZB (16kA rating).
- All Design 10 boards contain top, bottom & rear knockouts.

VML710CU

High Integrity

- Metal split load and configurable enclosures with ability to protect selected circuits with RCBOs and remainder of circuits split across two RCCBs. Single row from 10 to 16 outgoing ways, dual row from 18 to 38 outgoing ways.
- Enclosures come supplied with a full metal DIN rail and 2 RCCBs and full complement of earth and neutral terminals along with marking labels, busbar and instructions.
- Conforms to BS EN 61439-3 Including Annex ZB (16kA rating).
- All Design 10 boards contain top, bottom & rear knockouts.

VML918C

Multi Tariff

- Metal switch disconnecter incomer enclosures, single row from 12 to 18 outgoing ways, dual row with 10 outgoing ways.
- Enclosures come supplied with a full metal DIN rail, multiple switch disconnecter incomers and full complement of earth and neutral terminals along with marking labels, busbar and instructions.
- Conforms to BS EN 61439-3 Including Annex ZB (16kA rating).
- All Design 10 boards contain top, bottom & rear knockouts.

Flush Consumer Units

- Conforms to BS EN 61439-3 Including Annex ZB (16kA Rating).
- Enclosures come supplied with a full metal DIN rail, earth and neutral connections along with incoming device(s), busbar, grommet strip, rear cable entry plate, cable clamp to secure incoming meter tails, marking labels and instructions.
- Knockouts located top, bottom and rear of base.
- Min depth in wall 72mm.
