

Keyless Connected Smart Door Lock.

The Yale Keyless Connected Smart Door Lock gives you freedom to secure your home without the need for a key. Simple to use, you now have complete control on how you unlock your door.

Convenience

There's no need to worry if your children arrive home early, or if you're stuck at work with friends on your doorstep. You control who and when people have access to your home. For example, you can set a PIN code that works for 24 hours for a family member or your cleaning person.

Simple to Use

You choose how you want to open your door. PIN code, key card, key tag, remote fob and even from your Smartphone when connected to a smart home system. It is also easy to add and remove users if you need to.

Security as Standard

Feeling safe and secure is a must for any homeowner. The Keyless Connected Smart Door Lock has a tamper alarm and incorrect PIN code feature.

Always On

Don't worry if the electricity goes down as the Keyless Connected Smart Door Lock is powered by 4 AA batteries. It will even warn you when the batteries are running low.

Connectivity

Complete your smart home system. The Keyless Connected Smart Door Lock can connect to leading smart home systems when the appropriate module is fitted. It also connects to the Yale Smart Home Alarm and CCTV systems when you use the Yale Module.

Specification

- Front body measures 64mm (W) x 153mm (H) x 51mm (D)
- Operating temperature -15°C to 55°C
- IP55 weather resistant
- Cycle tested to 120,000 cycles
- Low power consumption - unlocks up to 10,000 times with one set of 4 x AA batteries
