### Product Description

TCP Smart Mini, 720p WiFi Smart Home Security Camera, 2.4ghz WiFi Band.

Introducing the TCPSmart Mini camera with 720p Video Resolution

This starter camera is an ideal option to begin your experience with Smart Home Camera technology. It has a great quality. Ideal for checking on pets while away, or on elderly relatives or saying hi to family at home.

#### Remote Access & Motion Detection Alerts

Using your Smartphone and the TCPSmart app, you can receive direct alerts from your camera when motion is detected. Not only this you can manage and access your camera whenever you want and wherever you are in the World through your phone.

#### Secure Your Home Day & Night

The TCP Smart Mini makes it easy to keep an eye on what's happening in any room. Its comes with a 3M adhesive sticker for easy siting. Once placed, you can adjust where the camera is aiming by bending the adjustable stand.

The 2.6mm lens has IR LEDs for clear video even when it's dark, giving clear night vision and recording.

#### Real-time viewing

Once you connect it to your network, you can view HD video any time from your smartphone and tablet. 100 degree viewing angle provides a great exposure of the room you are monitoring.

#### Listen-In and Talk

Talk with family and friends wherever you are. The camera comes with a built-in speaker for clear audio and microphone allowing two-way audio.

#### One App Does All the Work

All you need to do for setup is plug in the TCP Smart Mini Camera and connect it to Wi-Fi using the TCP Smart app. The TCP Smart app enables you control all TCP Smart devices.

#### Storage of footage

TCP Smart cameras can hold a MicroSD card up to 128gb for local and continuous storage.
