

The range is featuring now, besides the powerful flood lights with one or two heads, a number of very elegant designs which make a perfect match with the architecture of your house. The 2 stand-alone PIR sensors with multiple controls make the range complete.

LUTEC launches the InMotion concept offering a complete range of Security Sensor Lights.

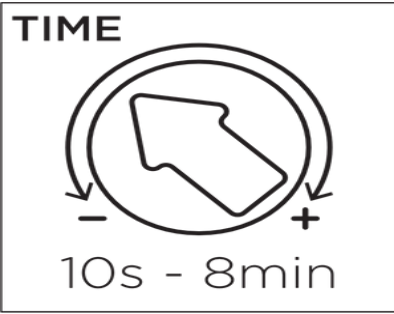

Comfortable detection area

The detection area is a combination of the reach in distance and angle. An adjustable sensor can be tilted and/or turned and gives you full freedom.

Your personal settings

Time setting

As from the moment the sensor detects a movement the light stay on from 10 seconds upon 8 minutes according your preference.

Twilight setting

The environment brightness can be adjusted according your selection from night (10 lux) to daylight. In this way the light will switch into the “ON” position according the selected outside light level and not during the day.

Distance setting

You can limit the detection distance in accordance with the desired detection area. In this way you can avoid a movement detection outside your private grounds.

For your convenience

Dusk to dawn

Automatic light on switching as soon it's dark outside.

Ambient light

Light stays on all night long in a gentle ambient light, after movement detection the light switches on a powerful light beam

Double sensor

Assures you a full detection not only frontal but also underneath the luminaire close to the wall.

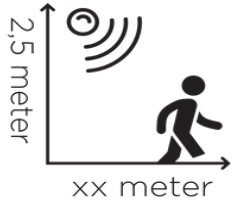

Test mode

You can define the perfect detection area during installation in daylight situation

How to choose?

Check in a few steps which InMotion Security Sensor Light suits the best for your home situation.
