Category 5e UTP 1U Elite Patch Panel

Connectix High Density Elite Patch Panels provide exceptional performance for high speed LANs including Gigabit Ethernet applications. The High-Density format is ideal where cabinet space is at a premium.

The panels achieve optimum transmission performances by incorporating the highest quality components and innovative on-board compensation techniques. The front of the panel features easy to use slide in labels and the rear utilities colour coded cable saddles and hook and loop cable retainers. All Connectix Panels offer extended PowerSum characteristics and exceed the ANSI/TIA-568-C & C.2 specifications, and when combined with Connectix Modules and UTP Cable, the link will perform well in excess of the stated Specification.
