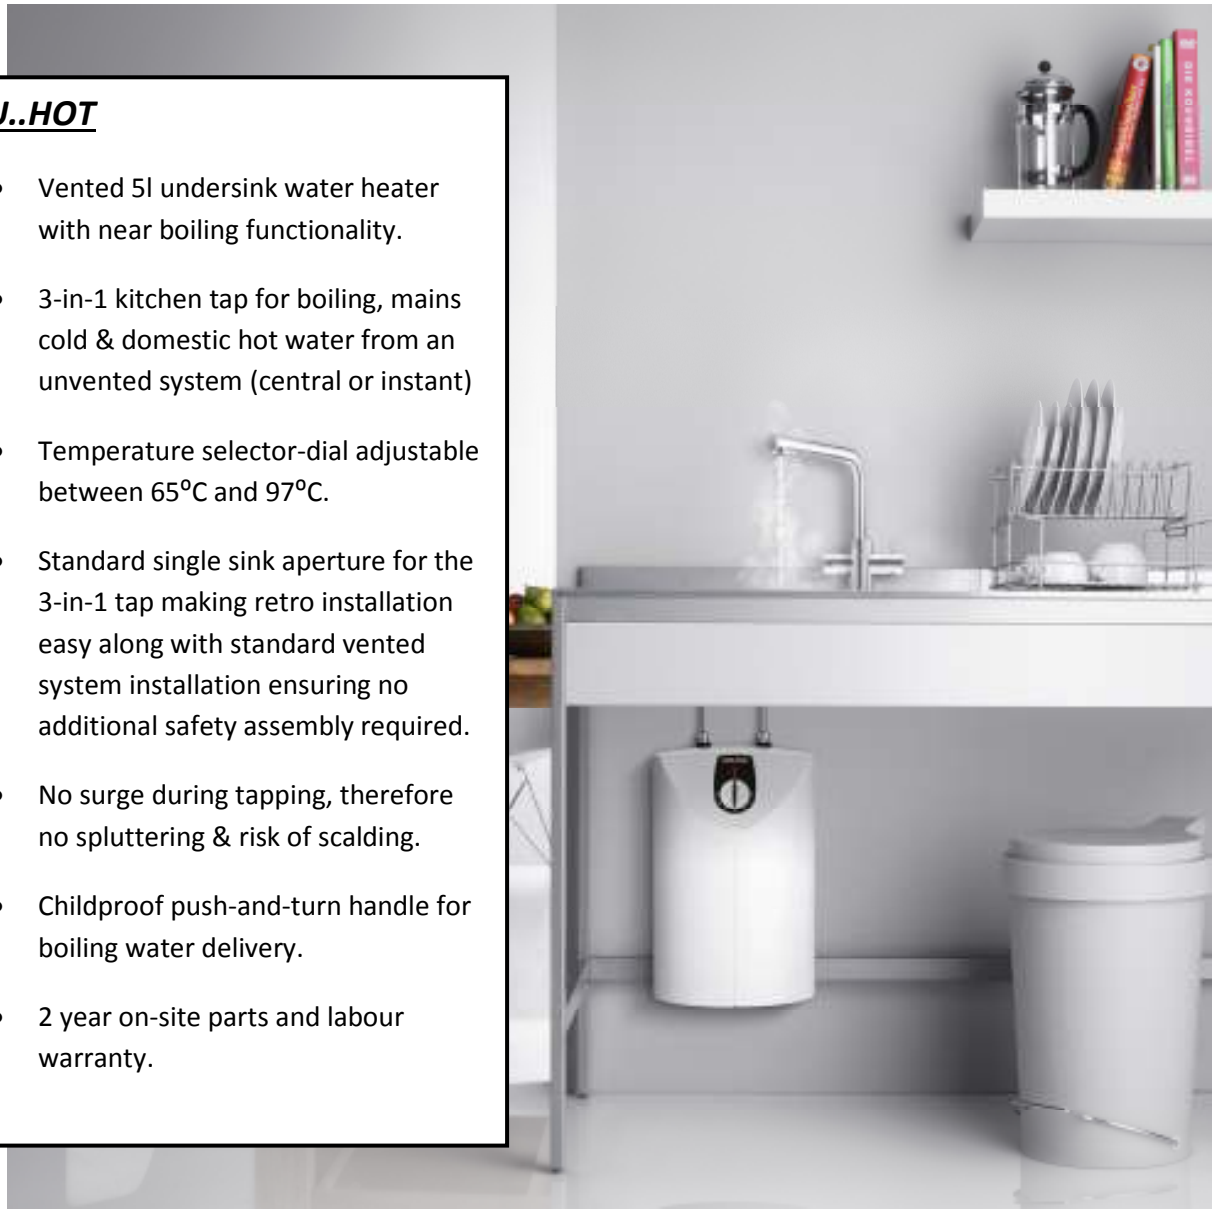
# UNDERSINK WATER BOILER & 3-in-1 TAP

STIEBEL ELTRON



## ***SNU..HOT***

- Vented 5l undersink water heater with near boiling functionality.
- 3-in-1 kitchen tap for boiling, mains cold & domestic hot water from an unvented system (central or instant)
- Temperature selector-dial adjustable between 65°C and 97°C.
- Standard single sink aperture for the 3-in-1 tap making retro installation easy along with standard vented system installation ensuring no additional safety assembly required.
- No surge during tapping, therefore no spluttering & risk of scalding.
- Childproof push-and-turn handle for boiling water delivery.
- 2 year on-site parts and labour warranty.
